# Acknowledgement of country

*I would like to acknowledge the continuous and deep connection of Aboriginal people to the many traditional lands on which we gather today. We pay respect to the first healers, educators and scientists on Country, our Aboriginal Elders past and present. Today, I join you from Wadjuk Noongar Boodja and I extend my acknowledgement to the Custodians of the lands you join us from today.*

# Quotes from Participants

The sandbox and working alongside the presenter is very useful

Feel like I've got a good understanding of the whole system

I picked up some tips that I was not aware of.

Very valid reminder of previously learnt information and acquiring new skills to navigate VWA site

I have been using Vaccinate WA since COVID, but I did learn some new tips today - probably some shortcuts that have been added since the inception of the program

Really good to see how to upload lists and download lists for schools. I like the email function and how short the process is to "vaccinate" someone on VWA
